

WeekDate

Only Write It Once.

Balancing the phone between your ear and shoulder... trying to do a million things... suddenly the voice on the phone tells you that your monthly book club or weekly status meeting has been moved to another day of the month or week. While some scramble through each month or week to make the change, the smart person has a WeekDate calendar... makes the change once and Voilà! – done for the year.

Now, you're that smart person.

Welcome to WeekDate.

WeekDate is copyrighted. You purchased a one-time download for one (1) calendar to be printed.

Unauthorized use and/or duplication of this material without express and written permission from WeekDate is strictly prohibited.

Notes

Please read before proceeding!

- This download is designed to fit perfectly inside of a mini three-ring binder, which would provide a hard exterior for your planner.
- This download could also be spiral bound and folded up, just like one of our Original Weekly Planners.
- When printing, make sure that:
 - **Page Scaling** is set to NONE.
 - **Shrink to Fit**, **Auto-Rotate**, and **Center** are all NOT checked.
 - You ARE printing **Actual Size** (100%).
- This planner is meant to have two weeks viewed at one time which means every other page should be printed on the back of the page that comes before it. (Page 2 will be on the back of Page 1, Page 4 will need to be printed on the back of Page 3, etc.)
 - **NOTE:** Before jumping ahead and printing all of your pages at once, test print the first two pages to make sure everything is working correctly. Each page has an edge designated for spiral binding/hole-punching, so make sure these edges line up front to back.
- Make sure you read all the sections through before completing the steps! This download is very versatile, so be sure you're making it exactly how you want!

OR

Happy WeekDating!

WeekDate[®]

Section 1

Printing Your WeekDate Pages!

The first section of this file contains the WeekDate pages.

NOTE: It is fine to print your WeekDate pages on any paper weight you have available, but note that heavier is better for durability throughout the year.

1. Print all of the planner pages (pages 4-91 of this document). This planner is meant to have two weeks viewed at one time which means every other page should be printed on the back of the page that comes before it. Page 2 will be printed on the back of Page 1, Page 4 will be printed on the back of Page 3, etc. When you are finished printing, you should have a stack of 44 pages.

2. ✂ Cut out the pages, removing all white borders.

3. Proceed to **Section 2** to follow the instructions for making your WeekDate covers!

When printing, make sure that

- **Page Scaling** is set to NONE.
- **Shrink to Fit**, **Auto-Rotate**, and **Center** are all NOT checked.
- You ARE printing **Actual Size** (100%).

📄 Notes

Don't forget to order your 2017 WeekDate.®

weekdate.com

Thank you for choosing WeekDate.®

Bind/hole-punch along this edge.

Section 2

Printing Your WeekDate Covers!

The second section of this file contains the inside cover pages (top and bottom) as well as multiple exterior covers for you to pick from.

NOTE: It is recommended that you print your WeekDate covers on cover stock paper which is 65 lb. or higher paper weight.

1. Print the first two pages (93 & 94) of this section on your cover stock paper. These are the insides of your cover.
2. Turn those two pages over and print the exterior covers of your choice (95-108) on the other sides of those same pages. Make sure you print the top exterior cover on the top inside cover page and the bottom exterior cover on the bottom inside cover page. You can pick any of the six covers from our 2016 Weekly Collection, go with our simple white cover option, or print anything you'd like on the exterior to totally customize your WeekDate!
3. ✂ Cut out your covers, removing all white borders.
4. Proceed to [Section 3](#) to complete your 2016 WeekDate Download Planner!

When printing, make sure that

- **Page Scaling** is set to NONE.
- **Shrink to Fit**, **Auto-Rotate**, and **Center** are all NOT checked.
- You ARE printing **Actual Size** (100%).

Bind/hole-punch along this edge.

Section 3

Putting Your WeekDate Together!

1. Attach your pages to the top and bottom covers. At this point, you can decide whether to:

- Spiral bind this planner at an office supply store or use a home binding system. Some customers have even used binder clips!
- Hole punch the pages and the covers and put it into a mini three-ring binder.

2. Fold the bottom section up and the top section down (using the dashed lines on the inside cover pages as guides) to store your compact WeekDate planner. If you are using this in a binder, you may choose to not fold these sections.

3. Begin using your new WeekDate planner to organize your life!

OR

Happy WeekDating!

WeekDate[®]
